SUBJECT INDEX

A

Absenteeism
behavioral risk effects, 1119
occupational versus nonoccupational, alcoholics and nonalcoholics, 453
physical fitness capacity and, police officers, 1137
Acquired immunodeficiency syndrome
influence, attitudes and work habits, medical technologists, 74
workplace education, employee response, 143
Age, life-sustaining treatment and, 383
Agent Orange, non-Hodgkin's lymphoma and, Vietnam veterans, 774
Agricultural workers, fumigant intoxication, during grain transport, 64
Aircraft personnel, head protection for helicopter frequent flyers, 766
Air quality, indoor, supplementation, negative ion generator, 681
Albuminuria, organic solvent-related, newspaper pressworkers, 516
Alcohol
motor vehicle safety behavior and, working populations, 705
role, occupational fatalities, 496
Alcoholics, disability payments, comparison, occupational and nonoccupational, 453
Aluminum chloride hexahydrate, topical, palmar hyperhydrosis treatment (letter), 1112
Aluminum reduction workers, mortality and cancer incidence, 1150
American College of Occupational Medicine
abstracts of 76th annual meeting, 534
committee report, ethical guidelines, drug screening, workplace, 651
1991 conference, information and schedule, 907
proposed bylaws amendments, 390
1991 state-of-the-art conference, call for papers, 393
American Occupational Health Conference
advance program for physicians, 169
exhibitors, 547
Asbestos exposure
computed tomographic assessment, 794
mesothelioma predictors, shipyard workers, 770
self-reported, reproducibility of, 134
Asbestosis, usual versus extended diagnostic criteria, 786
Asthma
occupational, screening, methacholine response variability, 19
prolonged, after smoke inhalation, 458
toluene diisocyanate-induced, clinical findings and bronchial responsiveness, 720
Atopy, factor in job decision making, grain workers, 1007
Automotive workers, lymphocytopenia and colorectal polyps in, 510

B

Back injury: *see also* Low back pain
in-house tracking program (letter), 843
medical claims, cost per case comparison, chiropractic versus medical management, 847, 1208 (letter)
Battery workers
blood-lead levels
effect of airborne lead particle size, 1265
high past lead-in-air exposures and, 797
Behavior
risk factors, impact on absenteeism and health care cost, 1119
type A, health and illness behavior in persons with, 891
Benzene
chronic exposure, bone marrow morphology (letter), 83
chronic low-level exposure, hematologic effects, 619
Hodgkin's disease and, worker exclusion policy (letter), 257
Beryllium, blood cell proliferation response, role, screening for chronic beryllium disease, 23, 1188 (letter)
Blood, HIV-positive, mortuary practitioners, 874
Blood cell, proliferation response to beryllium, role, screening for chronic beryllium disease, 23
Blood disorder, chronic low-level benzene exposure, 619
Blood pressure
ambulatory, industrial noise exposure and, 879
occupational ranking based on, 853
Blood test, chronic beryllium disease (letter), 1188
Blue collar workers, health-related attitudes, workplace health promotion and, 29
Bone marrow, morphologic study, benezene-exposed workers (letter), 83
Book reviews, 653, 1187
Brain tumor
electromagnetic field exposure and (letter), 944
mortality, occupation, socioeconomic status and, 1001
mortality update, petrochemical workers, 45
Breathing, pressure-based, comparison, inspiratory resistance, 1055
Business
analyis, occupational health/safety consultations, 1040
planning process, in-house corporate occupational medicine unit, 354

C

Cadmium, urinary excretion, potential dietary sources, 1175
Cancer
biomarker, oncogene-related, pulmonary carcinogenesis, 951
hospital-based registry, poor agreement, interview data, 726
incidence, aluminum reduction plant workers, 1150
Carbonless copy paper, adverse effects, epidemiologic review, 486
Cardiovascular disease, risk factor profiles, blue and white collar workers, 29
Carpal tunnel syndrome
diagnosis, vibrometer role (letter), 1112
early evaluation, vibration testing effectiveness, 117
median nerve latencies and, poultry processing workers, 627
ridge detection tactility deficits, 730

Central nervous system, sleep deprivation effect, on-call housestaff physicians, 13
Chemical exposure
advances in cancer biomarkers, pulmonary carcinogenesis, 951
hierarchical coding system, 127
hydrogen chloride-related lung cancer, case-control study, 958
threshold limit values, alterations (letters), 945
Cholinesterase, measurement, analysis of (letter), 101
Cigarette smoking: *see* Smoking
Colorectal polyp, automotive pattern and model makers, 510
Commentaries
Cumulative trauma disorders of the upper extremity: a preventive strategy is needed, 642
Ethical conflict in the private practice of occupational medicine, 80
What are cumulative trauma disorders?, 644
Computed tomography, high resolution, silicosis and asbestos-related disease, 794
Computer, neurobehavioral testing, 1156
Conjunctivitis, multiple episode outbreak, nut-processing facility, 505
Construction workers
dermatitis epidemic, 462
fatal electrical injuries, epidemiologic characteristics, 57
Creatine kinase, abnormal results (OM Forum), 259
Culture, role, smoking behavior, 1035

D

Dermatitis, fire-retardant lumber-associated, construction site, 462
Diabetes, insulin-dependent, firefighter guidelines (OM Forum), 759
Diazepam, urine contamination, resulting from herbal preparation, 1168
Disability, evaluation, purchase by patient (OM Forum), 6
Disability benefits, occupational versus nonoccupational, alcoholics and nonalcoholics, 453
Disease cluster, occupational health role, 818
Drugs
as hospital hazards, (editorial), 159
hospital handling procedures, 155
illicit, role, occupational fatalities, 496
nonprescription, role, occupational fatalities, 496
prescription, role, occupational fatalities, 496
Drug screening, laboratory proficiency testing (letters), 422
Dust, self-reported exposure, reproducibility of, 134
Dyschromatopsia, acquired, styrene-exposed workders, 761

Editorials
The chiropractic and me. Whither? Whether?, 1209
Toward more universal precautions, 159
Valedictory editorial, 1212
Who's counting anyway? The problem with occupational safety and health statistics, 1071
Electrical workers, electromagnetic field exposure, leukemia mortality, United States, 160
Electricity, hazardous exposure, preventive intervention, 57
Electromagnetic field, brain cancer and (letter), 944
Electronics, pregnancy outcome in women workers, 597
Employee assistance program, compliance with clinical recommendations, insurance coverage effect, 862
Environmental illness, personality style of patients with (letters), 431
Epidemiologic studies
applied concepts from toxicology, 1247
data pooling, 1257
data sharing and access, 1253
good practices
guidelines, occupational research, 1221
guidelines, progress and conflicts resulting from, 1261
overview, 1216
introduction to quality principles, 1244
principles for improvement of, 1230
protocol review, 1240
quality and conduct of, 1213
quality assurance, 1250
quality enhancement, 1230
study protocol importance, 1236
Ergonomics, consulting rates (OM Forum), 99
Ethyleneamine, dermatologic and respiratory responses, review of medical surveillance records, 148
Eye
multiple-episode conjunctivitis outbreak, nut-processing facility, 505
occupational injury, soldiers, 646

F

Firefighters
insulin-dependent diabetic, guidelines (OM Forum), 759
pregnant, physical and chemical hazards (letters), 446
smoke inhalation, prolonged asthma after, 458
wildland, pulmonary function and respiratory symptoms, 1163
First aid, supply list (OM Forum), 5
Fumigant, intoxication, during grain transport, federal inspectors, 64

G

Grain workers
atopic status, factor in job decision making, 1007
fumigant intoxication, during grain transport, 64

H

Hazardous waste workers, medical surveillance programs, quality assurance audits, 1170
Hazardous work, certification, hypertensive employees (OM Forum), 940
Head protection, helmet effectiveness, helicopter frequent flyers, 766
Health care
employer-provided
assessment, Olmsted County benchmarks, 273
basic data for, 275
benefits facts and figures, 300
comprehensive approach, 338
computer-assisted cost management, 268
corporate initiatives, 331
data management, 264

health maintenance organizations, 288
informed consent and medical benefit selection, 298
introduction, 261
mental health and substance abuse plan, 305
mental health and substance abuse services, value assurance, 307
mental health services, 302
organizational structure for quality improvement, 364
preventive services role, 314
program process, 348
public goals through private means, 376
reducing malpractice costs, 297
reformation strategy, purchasers and providers, 358
value-managed mental health services, 311
value management strategy, 386
employer values, 363
life-sustaining treatment, selection criteria, 381
quality improvement, c-section experience, 372
quality measurement and management project, overview, 374
rationing, 384
Health care cost: *see* Medical cost
Health care workers
attitudes and work habits, AIDS influence, 74
hepatitis B vaccine program for, benefit-cost analysis, 691
noise-induced hearing loss, hospital, 1067
participation, free hepatitis B immunization, 804
pharmaceutical hazards, handling procedures, 155
sick-hospital syndrome, 737
universal precautions (editorial), 159
work stress, emergency medical technicians, 991

Health maintenance organization, structure, performance, current issues, 288
Health promotion
small business, employee participation strategy, 66
workplace
cost effectiveness, 327
economic impact, 868
employee response to AIDS information, 143
participant characteristics, 474
psychosocial predictors of participation, 479
risk factor profiles, blue and white collar workers, 29
Hearing loss, noise-induced, hospital workers, 1067
Heart rate, ambulatory, industrial noise exposure and, 879
Helmet, effectiveness, helicopter frequent flyers, 766
Hepatitis B
immunization
plant security officers (OM Forum), 99
police officers (OM Forum), 845
vaccine choice and program participation, 804
benefit-cost analysis, occupationally exposed workers, 691
n-Hexane, polyneuropathy, ball-manufacturing factory, Taiwan, 139
Hodgkin's disease, benzene and, worker exclusion policy (letter), 257
Hospital
discharge data, identification of occupational lung disease from, 1060
noise hazard, noise-induced hearing loss and, 1067
Hospital workers: *see* Health care workers
Hyperhydrosis, palmar, diagnostic test (letter), 1112
Hypertension
hazardous work criteria (OM Forum), 940
work-site wellness program, cost effectiveness, 962

I

Illness, work-related, cost, Pennsylvania, 971
Industrial workers, long-term noise exposure, ambulatory blood pressure and heart rate and, 879
Infection, control, mortuary practitioners, 874
Injury: *see also* Trauma
electrical, fatal, constuction and mining workers, 57
industrial workplace, circadian pattern of accident frequency, 903
medical laboratory housekeeping staff, incidence and worker perceptions, 52
work-related
cost, Pennsylvania, 971

Intervertebral disc, degeneration, truck drivers (OM Forum), 582

L

Lead
air levels-blood levels relationship, lead-acid battery workers, 797
blood levels, airborne lead particle size effect, battery workers, 1265
Lead exposure, outdoor firing ranges, 718
Letters to the editor, 83, 100, 257, 422, 585, 827, 843, 943, 1028, 1188, 1207
Leukemia
medical surveillance for, petrochemical workers, four-year summary, 808
mortality, electromagnetic field exposure and, United States, 160
Loggers, pulmonary health risks, 699
Low back pain, whole-body vibration exposure and, subway operators, 605
Lung
occupational disease identification, hospital discharge data, 1060
pulmonary alveolar proteinosis, NO_2 role, 638
pulmonary health risks, Northwest loggers, 699
Lung cancer
hydrogen chloride exposure and, case-control study, 958
mineral wool workers (letters), 585
ras oncogene and p21 protein as biomarkers of, 951
Lymphocytopenia, automotive pattern and model workers, 510

M

Mantel-Haenszel χ^2 statistic, inappropiate application, studies with sparse data, 1081
Medical cost
chiropractic versus medical management, back injury (letter), 1208
effects of behavioral risks, 1119
life-sustaining treatment
age considerations, 383
selection criteria, 381
Medical education, preventive medicine residency programs, management skills and issues, 977
Medical laboratory, housekeeping staff, associated injuries, 52
Medical malpractice, cost reduction, 297
Medical personnel, working hours of residents and housestaff (letter), 843
Medical surveillance
corporate system, validity of mortality study based on, 1180
leukemia, petrochemical workers, four-year summary, 808
quality assurance audits, hazardous waste workers, 1170
Medication, self-reporting program, 1131
Mefenamic acid, urine contamination, resulting from herbal preparation, 1168
Mental health
employer-provided services, 302
management, leak-proof plan for, 305
practitioner qualifications and credentials, 310
services, value assurance, 307
value-managed benefits, 311
Mesothelioma
liability determination, 956
predictors, asbestos-exposed shipyard workers, 770
Metalworkers
lung cancer, proportional mortality ratio, 901
lung cancer and respiratory disease, cohort mortality study, 896
Methacholine, response variability, screening for occupational asthma, 19
β_2-Microglobulin, urinary excretion, potential dietary sources, cadmium-exposed workers, 1175
Military personnel
basic combat training, cigarette smoking role, 688
mortality among Vietnam veterans, 780
non-Hodgkin's lymphoma among Vietnam veterans, 774
occupational eye injuries, 646
Mineral wool workers, respiratory cancer incidence (letters), 585
Mine workers, fatal electrical injuries, epidemiologic characteristics, 57
Mortality
aluminum reduction plant workers, 1150
cause-specific, work-site medical surveillance program, 677
cohort study, metal workers, 896
estimates, Canadian occupations, 1084
ethyleneamine exposure and, review of medical surveillance records, 148
job-related, California, 1983, 813
patterns, Vietnam veterans, 780
Mortality study, corporate health surveillance system-based, validity of, 1180
Mortuary practitioners, universal precautions among, infection risk and, HIV-positive blood, 874
Motor vehicles, safety behavior, correlates, working populations, 705

N

Neurobehavior, testing techniques, computerized versus examiner-administered, 1156
Neutropenia, benezene-exposed workers, bone marrow morphology (letter), 83
Nitrogen dioxide, role, pulmonary alveolar proteinosis, 638
Noise, industrial exposure, ambulatory blood pressure and heart rate and, 879
Non-Hodgkin's lymphoma, Vietnam veterans, 774
Nuclear facility, external ionizing radiation exposure, worker mortality, 632
